## REASONS FOR ALLOWANCE

**The following is an examiner's statement of reasons for allowance:**

Claims 1-24 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in forming an island shape gate electrode and a capacitor wiring over the island shape semiconductor film with the first insulating film interposed therebetween, forming a first contact hole to reach the gate electrode by selectively etching the second insulating film, forming a scanning line to be connected to the gate electrode on the second insulating film, forming a second contact hole to reach the semiconductor film by selectively etching the third insulating film, forming a signal line to be electrically connected to the island shape semiconductor film.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
